SELECTED PROJECTS

Trek Pets - Mobile Walking Game

React Native · TypeScript · Expo · AsyncStorage | In development

- Defined product requirements, architecture, and user experience for an Android walking game featuring virtual pets and collectible accessories.
- Directed AI-assisted development of step tracking, saved pet collections, and accessory preview/equip flows.
- Specified progress persistence and reward reconciliation to prevent duplicate coin awards during repeated synchronization.

Code Nest - Full-Stack Discussion Application

Node.js · Express · PostgreSQL · Sequelize · Handlebars | Bootcamp project | [Source](#)

- Developed Express routes for user registration, login, posts, and comments.
- Modeled relationships between users, posts, and comments using Sequelize and PostgreSQL.
- Integrated bcrypt password hashing and database-backed sessions with server-rendered pages.

Hollow Run - Isometric Maze Game

JavaScript · PixiJS · Vite | Playable MVP | [Live demo](#) · [Source](#)

- Developed a browser game with AI assistance, featuring procedural mazes, enemy pursuit, power-ups, and keyboard and touch controls.
- Published through GitHub Pages with an automated workflow running 14 regression tests before building and deploying.

PROFESSIONAL EXPERIENCE

Costco Wholesale - Leadership & Training Roles

September 2007 - April 2025

- Led a produce department to **#1 nationally in sales and growth**, averaging **12-14% year-over-year growth** under my leadership.
- Collaborated with corporate representatives to establish company-wide produce layout standards.
- Managed teams of **15-20 employees** and trained approximately **60 forklift operators**, supporting completion of required safety documentation.
